DVDVideoSoft Freemake YouTube Download. "Deleting playlists from a connected device can be done with the app's direct controls. For example, clicking the "Playlist" tab will take you to a screen to edit the playlist itself. "It also has a built-in YouTube player for the usual subscription-based sites like YT Music, and support for Chromecast. Again, the interface is similar to that of the Windows Phone YouTube app, with only a slight. The app's "YouTube" tab contains five areas: Playlists, Recently Played, Home, Recommendations, and Subscriptions. "The first two provide familiar YouTube-centric viewing and management functions; the last two are more just music-specific. "Note that while the app has a "Home" tab that shows the video player, it does not have a Playlist tab. Like the Windows Phone app, it does include a "Music" section. "However, to open a playlist you'll need to click the "Playlist" button on the left-hand toolbar. To open a "Recently Played" playlist, click the arrow on the bottom of the toolbar. "Additionally, the app does not currently have a way to download videos to watch offline, but it does have a setting to "preserve the current position of a video." "All in all, this app is useful but more for browsing than for working. "Pros: "This app is useful for viewing YouTube videos without an Internet connection, so I'm sure some people will enjoy it. "Cons: "Like the Windows Phone app, it is very rudimentary. "This is an app from Disc Video Software that works with DVDVideoSoft's DVD Studio Pro software. "The cost of the app is \$0.85. Disc Video Software's YouTube Downloader (DVDVideoSoft) Crack is an amazing Youtube downloader for Windows that can download and play any video from youtube.

Choose one of the below to download the videos, for easy YouTube download from Youtube. This is a wonderful way to download anything you want from Youtube or any video website.
